 **Pizza for bitcoins?**  
May 18, 2010, 12:35:20 AM

 #1

---

I'll pay 10,000 bitcoins for a couple of pizzas.. like maybe 2 large ones so I have some left over for the next day. I like having left over pizza to nibble on later. You can make the pizza yourself and bring it to my house or order it for me from a delivery place, but what I'm aiming for is getting food delivered in exchange for bitcoins where I don't have to order or prepare it myself, kind of like ordering a 'breakfast platter' at a hotel or something, they just bring you something to eat and you're happy!

I like things like onions, peppers, sausage, mushrooms, tomatoes, pepperoni, etc.. just standard stuff no weird fish topping or anything like that. I also like regular cheese pizzas which may be cheaper to prepare or otherwise acquire.

If you're interested please let me know and we can work out a deal.

Thanks,  
Laszlo

Block 689288 ⓘ

USD

BTC

This block was mined on July 01, 2021 at 12:47 PM GMT+5:30 by [Unknown](#). It currently has 1 confirmations on the Bitcoin blockchain.

The miner(s) of this block earned a total reward of 6.25000000 BTC (\$210,776.38). The reward consisted of a base reward of 6.25000000 BTC (\$210,776.38) with an additional 0.40725246 BTC (\$13,734.27) reward paid as fees of the 2677 transactions which were included in the block. The Block rewards, also known as the Coinbase reward, were sent to [this address](#).

A total of 1,505,29574936 BTC (\$50,764,925.02) were sent in the block with the average transaction being 0.56230697 BTC (\$18,963.36). Learn more about [how blocks work](#).

92233720368.54277039 BTC? Is that UINT64\_MAX, I wonder?

# Myths & Reality

## Blockchain is secure & it can't be hacked.

Get StartedWalletNewsCompany ▾Exchange

### 25,000 BTC Gone in an Instant

Blockchain records attest to the veracity of allinvain's claim, with the majority of the stolen coins extracted in 50 BTC increments, showing that they had been minted as coinbase rewards. The 25K BTC stolen was worth \$480,000 at the time, a small fortune for a miner, even by 2011's standards. Today, that haul of coins would be worth \$94 million. Monitoring the movement of the stolen coins in the wake of the hack proved difficult because the only block explorer available at the time kept crashing.

#### Outputs

	USD (Historical)	USD (Now)	BTC
1Jg1wRcrH4PuZ4Qek9dshQPMFuaM9KXK5v	0.19 USD	37.91 USD	0.010 000 00 BTC
1KPTdM6p7H3YCwsyFqR5mKQmHq1Q3Jg	480,250.00 USD	94,774,000.00 USD	25,000.000 000 00 BTC

The transaction that saw 25,000 BTC stolen in June 2011.

Bitfly @etherchain\_org · 30 Aug 2020

Today another large 51% attack occurred on the #ETC network which caused a reorganization of over 7000 blocks which corresponds to approximately 2 days of mining. All lost blocks will be removed from the immature balance and we will check all payouts for dropped txs.

## Bitcoin Rival Suffers Devastating Attack

**Billy Bambrough** Senior Contributor @Crypto & Blockchain  
*I write about how bitcoin, crypto and blockchain can change the world.*

Listen to this article now-02:06  
Powered by Trinity Audio

Bitcoin gold, a relatively minor cryptocurrency that split off from the original bitcoin blockchain in late 2017, has suffered a so-called 51% attack resulting in over \$72,000 worth of bitcoin gold tokens being double spent.

A 51% attack can occur when malicious cryptocurrency miners take control of tokens' blockchain and is the second time it's now happened to bitcoin gold which saw \$18 million worth of bitcoin gold stolen in May 2018.

# 50+ BLOCKCHAIN REAL WORLD USE CASES

**GOVERNMENT**

Essentia develops world's first blockchain solution to manage international logistics hub together with Traffic Labs and the Finnish Government

 **essentia.one**

**IDENTIFICATION**

Voter registration is being facilitated via a blockchain project in Switzerland spearheaded by Uport.

 **uport**

**MOBILE PAYMENTS**

The blockchain ledger that Ripple uses has been latched onto by a group of Japanese banks, who will be using it for quick mobile payments.

 **ripple**

**INSURANCE**

A smart contract-based blockchain is being used by Insurer American International Group Inc as a means of saving costs and increasing transparency.

 **AIG**

**ENDANGERED SPECIES PROTECTION**

The protection of endangered species is being facilitated via a blockchain project that records the activities of these rare animals.

**CARBON OFFSETS**

IBM is using the Hyperledger Fabric blockchain in China to monitor carbon offset trading.

 **IBM**

 **HYPERLEDGER**

**ENTERPRISE**

Ethereum's blockchain can be accessed as a cloud-based service courtesy of Microsoft Azure.

**BORDER CONTROL**

Essentia has devised a border control system that would use blockchain to store passenger data in the Netherlands.

 **essentia.one**

**SUPPLY CHAINS**

IBM and Walmart have partnered in China to create a blockchain project that will monitor food safety.

 **IBM**

 **Walmart**

**HEALTHCARE**

A number of healthcare systems that store data on the blockchain have been pioneered including MedRec.

 **MEDREC**

**SHIPPING**

Shipping is a natural fit for blockchain, and Maersk have been trialling a blockchain-based project within the maritime logistics industry.

 **MAERSK**

**REAL ESTATE**

Blockchain is now being used to complete real estate deals, the first of which was conducted in Kiev by Propy.

 **PROPY**

**ENERGY**

Essentia is developing a test project that will help energy suppliers track the distribution of their resources in real time, whilst maintaining data confidentiality.

 **essentia.one**

**LAND REGISTRY**

Land registry titles are now being stored on the blockchain in Georgia in a project developed by the National Agency of Public Registry.

 **NATIONAL AGENCY OF PUBLIC REGISTRY**

**COMPUTATION**

Digital Currency Group are helping Amazon Web Services examine ways in which the distributed ledger technology can help improve database security.

 **DIGITAL CURRENCY GROUP**

**ADVERTISING**

New York Interactive Advertising Exchange has been experimenting with blockchain as a means of providing an ads marketplace for publishers.

 **NYIAX**

**BORDER CONTROL**

Essentia is developing a blockchain project for border control that will allow customs agents to record passenger data from an array of inputs and safely store it.

 **essentia.one**

**JOURNALISM**

Decentralized journalism, as enabled by blockchain technology, has the potential to prevent censorship and increase transparency as Civil has shown.

 **CIVIL**

**WASTE MANAGEMENT**

Waltonchain is using RFID technology to store waste management data on the blockchain in China.

**ENERGY**

Food importation is another industry where blockchain is proving its worth, with Louis Dreyfus Co trialling a soybean importation operation using this technology.

 **LDC**

**DIAMONDS**

The De Beers Group is using blockchain to track the importation and sale of diamonds.

 **DE BEERS**

**FINE ART**

By storing certificates of authenticity on the blockchain, it's possible to dramatically reduce art forgeries, as one blockchain project is proving.

**NATIONAL SECURITY**

For the past two years, the US Department of Homeland Security has been using blockchain to record and safely store data captured from its security cameras.

**TOURISM**

In a bid to boost its tourism economy, Hawaii is examining ways in which blockchain-based cryptocurrencies can be adopted throughout the US state.

**TAXATION**

In China, a tax-based initiative is using blockchain to store tax records and electronic invoices led by Miaoai Network.

**ENERGY**

Chile's National Energy Commission has started using blockchain technology as a way of certifying data pertaining to the country's energy usage as it seeks to update its electrical infrastructure.

 **CNE**  
COMISION NACIONAL DE ENERGIA

**RAILWAYS**

Russian rail operator Novotrans is storing inventory data on a blockchain pertaining to repair requests and rolling stock.

 **NOVOTRANS**

**ENTERPRISE**

Google is building its own blockchain which will be integrated into its cloud-based services, enabling businesses to store data on it, and to request their own white label version developed by Alphabet Inc.

 **Google**

 **Alphabet**

**MUSIC**

Arbit is a blockchain-based project led by former Guns N Roses drummer Matt Sorum seeking a fairer way to reward musicians for their creative efforts.

 **arbit**

**FISHING**

Blockchain technology has been used to provide a transparent record of where fish was caught, as a means of ensuring it was legally landed.

A decorative header at the top of the slide consists of six colored rectangular blocks: salmon, orange, yellow, light green, pink, and cyan.

**What Great Minds  
Think about  
Blockchain ?**

## What ?

Allows to record value, Decentralized, Distributed, Cryptographically Secured, Immutable

## Why ?

Eliminates MiddleMan, Secured, Transparent, Efficient, Inexpensive

## Where ?

Almost Everywhere
